

Ceramic Crazing Resistance Tester Model: ADL-CCRT300

Summary

ADL-CCRT300 Ceramic Crazing Resistance Tester is designed on the principle of electric heater heating water to generate steam

Meeting the Standard

GB/T3810.11-2016--The methods of ceramic tiles Part 11: Determination of crazing resistance for glazed tiles

ISO10545-11 : 1994--(ISO 10545-11:1994, Ceramic tiles Part

11: Determination of crazing resistance for glazed tiles, IDT)

EN13258--Materials and articles in contact with foodstuffs--Test methods for crazing resistance of ceramic articles

Structural Characteristics

ADL-CCRT300 Ceramic Crazing Resistance Tester is mainly composed of pressure tank, electric contact pressure gauge, safety valve, electric heater, electric control device and other components. It has the characteristics of compact structure, light weight, high pressure control precision, easy operation and reliable operation

Main Technical Parameters

- Voltage - 380 volts, 50 Hz;
- Power - 4 kW;
- Container volume - 300×300 mm;
- Maximum pressure - 1.0mpa;
- Pressure accuracy - ± 20 kp-alpha;
- No contact automatic constant pressure, digital set constant pressure time.
- The use of quick-opening flange, more convenient and safe operation

Configurations

- | | |
|--|---------|
| • ADL-CCRT300 host | - 1 set |
| • Sample rack | - 1 pc |
| • Pressure vessel inspection certificate | - 1 pc |
| • Thermocouple | - 1 pc |
| • Gasket | - 1 pc |
| • Heater | - 1 pc |

AdLab is a globally recognized brand specializing in the manufacturing and supply of high-quality laboratory equipment and textile testing instruments. With over 15 years of experience, we are committed to delivering precision-engineered solutions that meet the needs of industries such as textiles, pharmaceuticals, research laboratories, and educational institutions. Our products are designed to enhance efficiency, accuracy, and reliability in scientific and industrial applications.

Our Skill

At AdLab, we combine expertise in precision engineering with advanced laboratory technology to create innovative and reliable testing instruments. Our team of skilled professionals continuously works on improving product designs, integrating the latest advancements in technology, and ensuring compliance with international quality standards. With a strong focus on research and development, we provide customized solutions that cater to the unique needs of our customers worldwide.

Our Products

AdLab offers a wide range of high-quality laboratory and textile testing instruments, including Yarn & Fiber Testing Instruments, Laboratory Fume Hood Chambers, Ovens & Incubators, Water Baths, Textile Testing Instruments, Dyeing & Finishing Machines, Ceramic Testing, Tensile Testing, Washers & Dryers, Needle Detectors, and In-House Testing Equipment. Designed for precision and efficiency, our products ensure accurate testing and reliable performance across various industries.

Our Services

At AdLab, customer satisfaction is our top priority. We provide comprehensive support services to ensure the smooth operation of our equipment, including:

- ✓ 24/7 Technical Support Team – Our highly trained technical support team is available around the clock to assist with troubleshooting, maintenance, and operational guidance. Whether you need immediate assistance or expert advice, we are always ready to help.
- ✓ Installation & Training – We offer professional installation services and hands-on training to help users operate our equipment efficiently.
- ✓ Calibration & Maintenance – Regular calibration and maintenance services ensure that your laboratory instruments remain accurate and in optimal working condition.
- ✓ Customized Solutions – We provide tailored solutions to meet specific industry requirements, helping our clients achieve maximum efficiency in their operations.
