

Halogen Moisture Meter Model: ADL-HM110

Application Function

The Halogen Moisture Meter is a fast moisture detection instrument that uses the principle of pyrolysis of halogen lamps.

Product Features

- ADL-HM110 Moisture Meter, It is a rapid moisture test apparatus, using halogen lamp thermogravimetric principle, compared with the international oven heating method, halogen heating can achieve maximum heating power in the shortest time, at a high temperature fast sample is dry, the testing results and the GB oven method has good consistency, can be replaced, and the detection efficiency is much higher than that of the oven method
- A general sample of just a few minutes to complete the test
- And has the advantages of simple operation, accurate testing, respectively, can display the water value, drying value, determination of time, temperature, and other data. With the computer, printer connection function.

Key Technical Parameters

• Mode	ADL-HM110	ADL-HM105	ADL-HM100
• Specification	110g/5mg	110g/2mg	110g/1mg
• Readability	5mg	2mg	1mg
• Tray size	Φ 90		
• Heating mode	Halogen Lamp		
• Display	LCD		
• Power Supply	AC(200~240),50Hz,50W		
• Operation Temperature	5~35°C		
• Temperature Setting	40~199°C		
• Time Setting	1~99 minutes		
• ATRO	100~999%		
• ATRO	0~999%		
• Time Setting	1~99min		
• Water range	0.00%---100%		
• Water - readable precision	0.01%		
• Remaining dry range	100.00%---0.00%		
• Remaining dry readable	0.01%		
• External Dimension	200(L)×180(W)×380(H) mm		
• Gross Weight	5.8kg		

**Technical Data Subject to change without notice.*

AdLab Instruments Co., Ltd

AdLab is a globally recognized brand specializing in the manufacturing and supply of high-quality laboratory equipment and textile testing instruments. With over 15 years of experience, we are committed to delivering precision-engineered solutions that meet the needs of industries such as textiles, pharmaceuticals, research laboratories, and educational institutions. Our products are designed to enhance efficiency, accuracy, and reliability in scientific and industrial applications.

Our Skill

At AdLab, we combine expertise in precision engineering with advanced laboratory technology to create innovative and reliable testing instruments. Our team of skilled professionals continuously works on improving product designs, integrating the latest advancements in technology, and ensuring compliance with international quality standards. With a strong focus on research and development, we provide customized solutions that cater to the unique needs of our customers worldwide.

Our Products

AdLab offers a wide range of high-quality laboratory and textile testing instruments, including Yarn & Fiber Testing Instruments, Laboratory Fume Hood Chambers, Ovens & Incubators, Water Baths, Textile Testing Instruments, Dyeing & Finishing Machines, Ceramic Testing, Tensile Testing, Washers & Dryers, Needle Detectors, and In-House Testing Equipment. Designed for precision and efficiency, our products ensure accurate testing and reliable performance across various industries.

Our Services

At AdLab, customer satisfaction is our top priority. We provide comprehensive support services to ensure the smooth operation of our equipment, including:

- ✓ 24/7 Technical Support Team – Our highly trained technical support team is available around the clock to assist with troubleshooting, maintenance, and operational guidance. Whether you need immediate assistance or expert advice, we are always ready to help.
- ✓ Installation & Training – We offer professional installation services and hands-on training to help users operate our equipment efficiently.
- ✓ Calibration & Maintenance – Regular calibration and maintenance services ensure that your laboratory instruments remain accurate and in optimal working condition.
- ✓ Customized Solutions – We provide tailored solutions to meet specific industry requirements, helping our clients achieve maximum efficiency in their operations.

Global Networks
