

High Temperature Steaming Oven Model: ADL-H-TS-III

For drying/shaping/baking/hot-melt color fixing/steaming

The appearance and design of this machine are similar to M-III, except that it has the functions of drying, shaping, baking, and hot-melt color fixing, it also has the function of steaming.

It is suitable for laboratory tests of steaming culture, baking, setting and drying, etc. In the steaming process of printed fabrics in printing factories, by adjusting temperature, humidity and time in the steaming box, testing the discoloration of processing and verifying Drug test results in order to get the correct resin processing formula.

Applications

- The appearance and design of this machine are similar to M-III, except that it has the functions of drying, shaping, baking, and hot-melt color fixing, it also has the function of steaming.
- It is suitable for laboratory tests of steaming culture, baking, setting and drying, etc.
- In the steaming process of printed fabrics in printing factories, by adjusting temperature, humidity and time in the steaming box, testing the discoloration of processing and verifying Drug test results in order to get the correct resin processing formula.

High Temperature Steaming Oven Model: ADL-H-TS-III

Technical Specifications

- Material: The whole machine is made of high-quality stainless steel SUS304 plate.
- Test cloth
 - Regular size: 350×400 (effective size 300×350) mm
 - Customized size: 500×600 (effective size 430 × 530) mm
- Hot air circulation control for shaping drying and baking: the working temperature is 20°C~250°C.
- Steaming: the outside is directly fed with steam for steaming.
 - Saturated steam baking, steam processing, steam heating temperature range 102°C±2°C
 - High temperature steam processing, combined use of electric heat and steam, temperature range 100°C-250°C
- Insulation control time: 1~99M can be preset, automatically exit after completion, and end the bell.
- Fan: stainless steel wind wheel, fan motor power 180 W.
- Needle plate: two-way stretch needle plate cloth frame
- Power supply: three-phase 380V, 50HZ.
- Total power: 6.2KW.
- Dimensions: 1540×700×1050mm.
- Weight: about 180KG.

AdLab is a globally recognized brand specializing in the manufacturing and supply of high-quality laboratory equipment and textile testing instruments. With over 15 years of experience, we are committed to delivering precision-engineered solutions that meet the needs of industries such as textiles, pharmaceuticals, research laboratories, and educational institutions. Our products are designed to enhance efficiency, accuracy, and reliability in scientific and industrial applications.

Our Skill

At AdLab, we combine expertise in precision engineering with advanced laboratory technology to create innovative and reliable testing instruments. Our team of skilled professionals continuously works on improving product designs, integrating the latest advancements in technology, and ensuring compliance with international quality standards. With a strong focus on research and development, we provide customized solutions that cater to the unique needs of our customers worldwide.

Our Products

AdLab offers a wide range of high-quality laboratory and textile testing instruments, including Yarn & Fiber Testing Instruments, Laboratory Fume Hood Chambers, Ovens & Incubators, Water Baths, Textile Testing Instruments, Dyeing & Finishing Machines, Ceramic Testing, Tensile Testing, Washers & Dryers, Needle Detectors, and In-House Testing Equipment. Designed for precision and efficiency, our products ensure accurate testing and reliable performance across various industries.

Our Services

At AdLab, customer satisfaction is our top priority. We provide comprehensive support services to ensure the smooth operation of our equipment, including:

- ✓ 24/7 Technical Support Team – Our highly trained technical support team is available around the clock to assist with troubleshooting, maintenance, and operational guidance. Whether you need immediate assistance or expert advice, we are always ready to help.
- ✓ Installation & Training – We offer professional installation services and hands-on training to help users operate our equipment efficiently.
- ✓ Calibration & Maintenance – Regular calibration and maintenance services ensure that your laboratory instruments remain accurate and in optimal working condition.
- ✓ Customized Solutions – We provide tailored solutions to meet specific industry requirements, helping our clients achieve maximum efficiency in their operations.
