

LED Base Color Assessment Cabinet Model: ADL-60(6)LED

Product Features

- Display the usage time and total time of each light source.
- The light source is automatically switched, with the function of metamerism.
- No need to preheat, no flicker, can ensure fast and reliable color evaluation.
- Low energy consumption, no heat (no need for heat dissipation), high luminous efficiency. The scope of applicatio chemical ceramics, foc of the goods.
- Small size, easy to use, low price.
- Characteristics of LED tubes: more energy-efficient and durable than fluorescent lamps.

Upgrade fluorescent lights to LED lights

fluorescent lamp

LED lamp

ADL- 60(6)LED color light box, adding ultraviolet light wave part has a detection effect close to natural daylight. It can be used independently or together with other light sources to detect fluorescent brighteners on products, dyes and coatings more effectively

It also has the advantage of multi-light source switching, which can easily detect whether there is metamerism between samples (this phenomenon means that the color of the sample matches under a certain light source, but it does not match when switched to another light source).

Product Parameters

- Allocation - D65, TL83, TL84, UL35, F, UV, 6 types of LED light sources
- Weight - 27kg
- Optional Accessory - 45 degree standard stand

LED Base Color Assessment Cabinet

Model: ADL-60(6)LED

Light source		
Name	Color temperature	Quantity and power
D65	6500K	2x12W
TL84	4000K	2x12W
TL83	3000K	2x10W
UL35	3500K	2x10W
UV	365nm	1x10W
F	2700K	4x40W

Light source description

- D65 International standard Artificial Daylight
- TL84 Applied to stores in Europe, Japan and China
- UV Viewing under ultraviolet light to detect and evaluate optical brighteners or fluorescent pigments
- F "Sun-setting Light Yellow" incandescent light source(imitation of sunset)

Application Industry

The scope of application of T60 (4) four-light source standard light source box: textile, toys, printing and dyeing, plastics, paint, ink, printing, pigments, chemical ceramics, footwear, leather, hardware, food, cosmetics and other color management fields, It is used to accurately check the color deviation of the goods.

Size

Internal dimensions: 710*412*545 mm (Length * Width * Height)

External dimensions: 680*388*360 mm (Length * Width * Height)

AdLab is a globally recognized brand specializing in the manufacturing and supply of high-quality laboratory equipment and textile testing instruments. With over 15 years of experience, we are committed to delivering precision-engineered solutions that meet the needs of industries such as textiles, pharmaceuticals, research laboratories, and educational institutions. Our products are designed to enhance efficiency, accuracy, and reliability in scientific and industrial applications.

Our Skill

At AdLab, we combine expertise in precision engineering with advanced laboratory technology to create innovative and reliable testing instruments. Our team of skilled professionals continuously works on improving product designs, integrating the latest advancements in technology, and ensuring compliance with international quality standards. With a strong focus on research and development, we provide customized solutions that cater to the unique needs of our customers worldwide.

Our Products

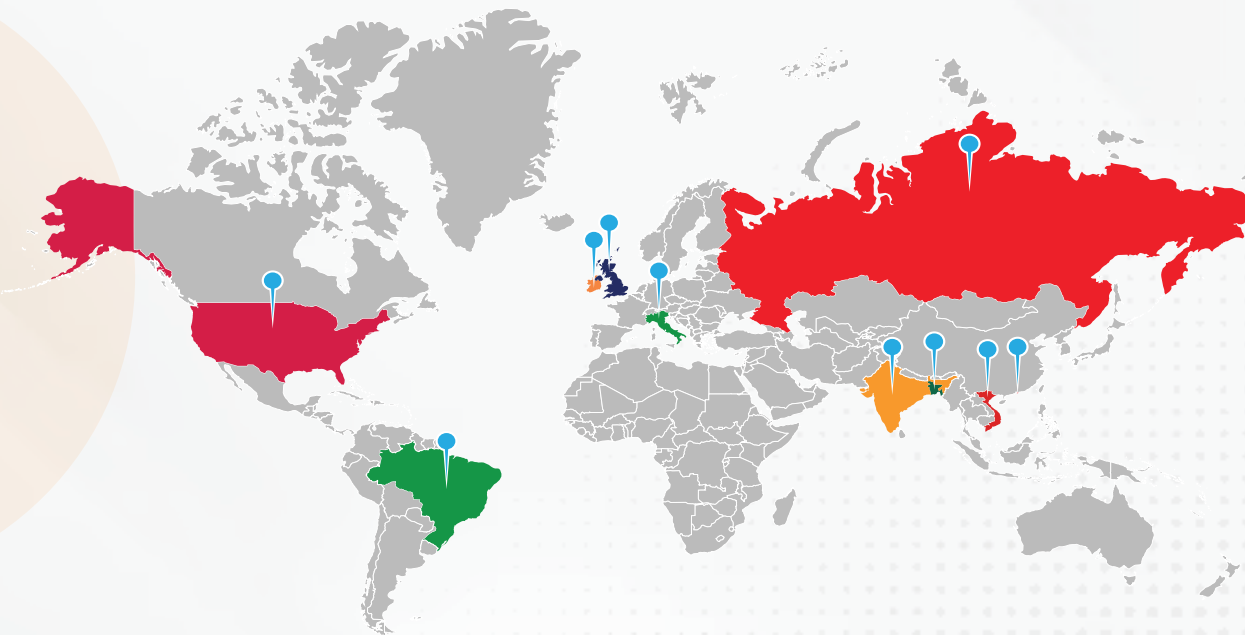

AdLab offers a wide range of high-quality laboratory and textile testing instruments, including Yarn & Fiber Testing Instruments, Laboratory Fume Hood Chambers, Ovens & Incubators, Water Baths, Textile Testing Instruments, Dyeing & Finishing Machines, Ceramic Testing, Tensile Testing, Washers & Dryers, Needle Detectors, and In-House Testing Equipment. Designed for precision and efficiency, our products ensure accurate testing and reliable performance across various industries.

Our Services

At AdLab, customer satisfaction is our top priority. We provide comprehensive support services to ensure the smooth operation of our equipment, including:

- ✓ 24/7 Technical Support Team – Our highly trained technical support team is available around the clock to assist with troubleshooting, maintenance, and operational guidance. Whether you need immediate assistance or expert advice, we are always ready to help.
- ✓ Installation & Training – We offer professional installation services and hands-on training to help users operate our equipment efficiently.
- ✓ Calibration & Maintenance – Regular calibration and maintenance services ensure that your laboratory instruments remain accurate and in optimal working condition.
- ✓ Customized Solutions – We provide tailored solutions to meet specific industry requirements, helping our clients achieve maximum efficiency in their operations.
