

Rotary Crock Meter Model: ADL-RT06

Application

This tester is suitable for evaluating the degree of color transfer from the surface of colored textiles to other surfaces due to friction. Suitable for various types of colored yarns and fabrics made from various fibers, including yarns and fabrics dyed, printed, and colored by other methods. Especially suitable for printed textiles with small areas that cannot be tested using standard friction meters.

Standard

ISO 105X16, AATCC 116, GB/T 29865-2013

Technical Parameter

- Friction head diameter - ϕ 16mm
- Collar sleeve - 2 pieces
- Sandpaper - 2 sheets
- Dimensions - 250 × 150 × 250mm (L × W × H)
- Weight - Approximately 10kg

Features

- Touch Screen Control
- The rotation angle can be set
- Rotation speed can be set
- The number of rotations can be set
- Servo motor

Optional Accessories

ATCC & ISO Gray scale

AdLab is a globally recognized brand specializing in the manufacturing and supply of high-quality laboratory equipment and textile testing instruments. With over 15 years of experience, we are committed to delivering precision-engineered solutions that meet the needs of industries such as textiles, pharmaceuticals, research laboratories, and educational institutions. Our products are designed to enhance efficiency, accuracy, and reliability in scientific and industrial applications.

Our Skill

At AdLab, we combine expertise in precision engineering with advanced laboratory technology to create innovative and reliable testing instruments. Our team of skilled professionals continuously works on improving product designs, integrating the latest advancements in technology, and ensuring compliance with international quality standards. With a strong focus on research and development, we provide customized solutions that cater to the unique needs of our customers worldwide.

Our Products

AdLab offers a wide range of high-quality laboratory and textile testing instruments, including Yarn & Fiber Testing Instruments, Laboratory Fume Hood Chambers, Ovens & Incubators, Water Baths, Textile Testing Instruments, Dyeing & Finishing Machines, Ceramic Testing, Tensile Testing, Washers & Dryers, Needle Detectors, and In-House Testing Equipment. Designed for precision and efficiency, our products ensure accurate testing and reliable performance across various industries.

Our Services

At AdLab, customer satisfaction is our top priority. We provide comprehensive support services to ensure the smooth operation of our equipment, including:

- ✓ 24/7 Technical Support Team – Our highly trained technical support team is available around the clock to assist with troubleshooting, maintenance, and operational guidance. Whether you need immediate assistance or expert advice, we are always ready to help.
- ✓ Installation & Training – We offer professional installation services and hands-on training to help users operate our equipment efficiently.
- ✓ Calibration & Maintenance – Regular calibration and maintenance services ensure that your laboratory instruments remain accurate and in optimal working condition.
- ✓ Customized Solutions – We provide tailored solutions to meet specific industry requirements, helping our clients achieve maximum efficiency in their operations.
