

Zipper Reciprocating Tester Model: ADL-ZTII

Application

Zipper Reciprocating Tester is used to determine the resistance to reciprocation of zipper. The test specimen is subjected to a specified number of cyclic operations whilst under lateral and longitudinal tension.

Related Standards

STANDARDS BS 3084 Annex F SATRA TM50
QB/T 2171, 2172, 2173 7.2.13

Features

- Number of reciprocating cycles can be set freely;
- Automatically stop to remind when the specified number of cycles is completed;
- LCD digital display;
- Easy to operate.

Technical Parameters

- | | |
|--|--|
| • Reciprocating stroke | - 75mm |
| • Test speed | - 30 cycles/min |
| • Lateral width of clamp | - 25mm |
| • Longitudinal width of clamp | - 10mm |
| • Closing angle of zipper | - 60° |
| • Opening angle of zipper | - 30° |
| • Angle between lateral force and horizontal level | - 10° |
| • Longitudinal force | - 5kg spring tension structure |
| • Counter | - 0~999,999, settable, LCD digital display |
| • Power supply: | - AC 220V, 50Hz |
| • Dimensions | - 56*45*70cm (L*W*H) Approx. |
| • Weight | - 80kg |

Standard Configuration

Main machine - 1 Set

AdLab is a globally recognized brand specializing in the manufacturing and supply of high-quality laboratory equipment and textile testing instruments. With over 15 years of experience, we are committed to delivering precision-engineered solutions that meet the needs of industries such as textiles, pharmaceuticals, research laboratories, and educational institutions. Our products are designed to enhance efficiency, accuracy, and reliability in scientific and industrial applications.

Our Skill

At AdLab, we combine expertise in precision engineering with advanced laboratory technology to create innovative and reliable testing instruments. Our team of skilled professionals continuously works on improving product designs, integrating the latest advancements in technology, and ensuring compliance with international quality standards. With a strong focus on research and development, we provide customized solutions that cater to the unique needs of our customers worldwide.

Our Products

AdLab offers a wide range of high-quality laboratory and textile testing instruments, including Yarn & Fiber Testing Instruments, Laboratory Fume Hood Chambers, Ovens & Incubators, Water Baths, Textile Testing Instruments, Dyeing & Finishing Machines, Ceramic Testing, Tensile Testing, Washers & Dryers, Needle Detectors, and In-House Testing Equipment. Designed for precision and efficiency, our products ensure accurate testing and reliable performance across various industries.

Our Services

At AdLab, customer satisfaction is our top priority. We provide comprehensive support services to ensure the smooth operation of our equipment, including:

- ✓ 24/7 Technical Support Team – Our highly trained technical support team is available around the clock to assist with troubleshooting, maintenance, and operational guidance. Whether you need immediate assistance or expert advice, we are always ready to help.
- ✓ Installation & Training – We offer professional installation services and hands-on training to help users operate our equipment efficiently.
- ✓ Calibration & Maintenance – Regular calibration and maintenance services ensure that your laboratory instruments remain accurate and in optimal working condition.
- ✓ Customized Solutions – We provide tailored solutions to meet specific industry requirements, helping our clients achieve maximum efficiency in their operations.
